EVACUATION ROUTES - BEAUFORT

Evacuees will use the two present northbound lanes on US 21. These lanes will be turned onto US 17 south to I-95 at Exit 33 (Point South) where the left lane will go to I-95 south and the right lane to I-95 north.

Under certain conditions, a third northbound lane will be formed by reversing flow on the inside southbound lane of US 21 at SC 280. This lane will carry the traffic from SC 280. Also as condition warrant, US 21 may be converted to four lanes northbound from SC 280. Both of the above schemes will end at US 17, Gardens Corner. In either case, motorists will be given instructions through signs and highway advisory radio.

HURRICANE SEASON 2019

Hurricane Season
June 1 to November 30

BE PREPARED BEFORE A STORM HITS

This Brochure Contains:

Hurricane Evacuation Checklist

STORM SURGE

The greatest potential for loss of life in coastal areas related to a hurricane is from the storm surge, which historically has claimed nine of ten storm victims.

Category 1:

Minimal Damage
Winds: 74-95 mph
Surge 4 to 5 feet

Category 2:

Moderate Damage
Winds: 96-110 mph
Surge 6 to 8 feet

Category 3:

Extensive Damage
Winds: 111-130 mph
Surge 9 to 12 feet

Category 4:

Extreme Damage
Winds: 131-155 mph
Surge 13 to 18 feet

Category 5:

Catastrophic Damage
Winds: More than 155 mph
Surge: higher than 18 feet

Whether you decide to stay in place or evacuate, having a plan and being ready are the keys to safety. **Start planning today. Stay alert. Stay alive.**
