VIRTUAL

**7 Nov, 1 Feb, 4 Apr,
6 Jun, 1 Aug**

Supervisory Level Substance Abuse Training is an informational, open forum focusing on two primary goals:

#1 – Educate SNCOs & Officers on the Marine Corps Order and other pertinent directives that addresses drug deterrence and other products that may seem harmless but can be detrimental to their careers. This includes: SARMs, hemp/CBD products, harmful supplements, and infused drinks.

#2 - Reinforce the Marine Corps policy of “Zero Tolerance” for illicit drug use, misuse & abuse of prescription medications, and all prohibited substances, which will result in referrals to SACC for assessments and possibly administrative separation from the military.
